comprises a series of connected essays on the nature of human action intention practical reasoning emotion and causality

is the appropriate form of human action explanation causal or rather teleological while this is a central question in analytic philosophy of action it also has implications for questions about the differences between methods of explanation in the sciences on the one hand and in the humanities and the social sciences on the other additionally this question bears on the problem of the appropriate form of explanations of past human actions and therefore it is prominently discussed by analytic philosophers of historiography this volume brings together causalists and anti causalists to address enduring philosophical questions at the

heart of this debate as well as their implications for the practice of historiography part i considers the quarrel between causalism and anti causalism in recent developments in the philosophy of action part ii presents papers by causalists and anti causalists that are more narrowly focused on the philosophy of historiography

social scientists have always recognised a divergence between approaches which emphasise the constraining power of social structure and those which interpret society through the cumulative effects of actions of individuals in recent years there has been renewed interest in the latter through the micro sociology of everyday life social scientists are now taking stock of the implications of micro sociological research for the analysis of structure and the macro level theory of society in actions and structure the value of micro sociological research for the analysis of social order is assessed individual chapters evaluate new research approaches from discourse and conversational analysis mathematical interactionist and phenomenol
